

# EPURAN ALEXANDRU

JUNIOR FRONT-END DEVELOPER

## PROFILE

Courteous, hardworking, enthusiastic and great sense of humour. I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming, e.g. developing apps and building websites. I like to code and develop my skills every day I also enjoy working both individually or as a team especially as a team because you know in a team you can achieve great things develop you as a person and learn something new every day I also like to help people when they need without expecting something in return because that's who i am. My goal is to become a full time Front-End Web-Developer because i like to see immediate results of my work.

Astronomy

## WORK EXPERIENCE

**Printing Machine Operator**  
**GE.GRAF, Bertinoro(FC), Italy**  
2009-2019

The Printing Machine Operator conducts single or in-line machines for printing on paper and other media. It can deal with one or more machines: rotary, offset, polygraphic and photolithographic printing machines. Prepare the machines with the materials, inks and other substances needed for printing. Apply any accessories to the machine. Set the parameters or program the machine according to the machining specifications and production objectives. Start the machine and check its correct operation, promptly intervening in the event of malfunctions or processing errors. Performs quality control and compliance with production standards. It carries out maintenance and cleaning of the machinery.

## EDUCATION

**Read, do, read more and learn - with support from a mentor**  
2020-2021

Starting march 2020 I was mentored by a **highly skilled mentor**, that has an experience of over **11 years** as developer and **architect**. Together we came with a plan to understand better the IT industry and in more detail the way JavaScript, and Front-End act. During one to one discussions we addressed items like: how computers, networks, internet, web-apps, browsers come in place to create the digital world. Following a list of materials to read, do, learn - I was able to get into details about **HTML**, **CSS**, **JS**, being able to understand the terms that are part of the glossary we have to use daily.

**The Informal School of IT**  
2020

I have attended 5 month course at the informal School of IT and I've learned Web development concepts such as **HTML5**, **CSS3**, **Javascript(ES6)** and **React**. I've acquired knowledge in how to build a responsive website, JS concepts such as AJAX, how to work with an API, OOP, and how to build a functional website. We had weekly homeworks which where meant to improve our knowledge and practice, also a final team project which was a Movie Website.

**ENAIP**  
Fondazione Ente Acli Istruzione Professionale Forlì e Cesena  
Design and Print  
2006-2009

**Gheorghe Lazăr School Group**  
Sport Profile  
2003
